

RCTC Report July 2004

All adult education classes were completed at the end of June. The only exception is the PA State Inspection and Mechanics Tool Course, which are offered in July and August.

All final annual reports to PDE, (RCTC and New Choices/New Options), have been completed and sent.

Registration for Term I classes of the 2004-05 calendar year begins August 16 and we are responding to a number of inquiries about these classes.

New Choices/New Options received continued funding in the Pennsylvania State Budget with an increase in the line item. We are awaiting word from PDE to begin writing the grant for 2004-05.
