

Joint Operating Committee Meeting March 24, 2005 School District Report

1. 2005-2006 ECTS Budget

The Technical School's 2005-2006 General Fund Budget has been approved by six school districts thus far. The remaining five school districts are expected to approve the budget before the end of April.

2. Erie PA Re-Entry Program

The Operating Committee heard a presentation from Mr. Bob Boeh, program director for GECAC's inmate re-entry program. GECAC is proposing to work with the adult education division to provide technical training. The training offered through the Regional Career & Technical Center would meet a need not fulfilled by other training providers in the region.

3. Sister School in China

After a recent visit to China, acting Superintendent of Record Dr. Verel Salmon returned with a memorandum of understanding for the technical school to begin developing a relationship with the Zibo Vocational Institute in the Shandong province. The agreement would encourage cooperation through trust, seek possible benefits for both schools and consider exchanging teachers and students.
