Total Time	98 min.	

Exit Interview

After student completes assessment, he or she will sit down with a Career Planning Associates Counselor to discuss background and technical school plans.

Summary

A written report for each student will be submitted to the Erie County Technical School containing results of the tests administered, interest survey results, observation of work habits, and recommendations for appropriate training.

Advantages Of Using Career Planning Associates

1. All test administrators have a Masters Degree in Counseling.
2. The Career Planning Assessment is 3 ½ hours shorter than the Sage Testing previously used by the Technical School, yet measures the interest, abilities, and aptitudes necessary for success in training programs offered by Vocational Technical Schools.
3. Career Planning Associates has been in business since 1987, with experience in testing a variety of populations, which includes special needs.
