| 24 | TELECOMMUNICATIONS                                | <b><u>West Communications</u></b> , 2323 West 38 <sup>th</sup> Street, Erie PA Looking for a full time "Podium Supervisor." This person is responsible for oversight of the production floor and ensuring that productivity levels and established goals and directives are met or exceeded. Qualifications required are: high school diploma, a minimum of one year in telemarketing or customer service, one year of supervisory experience and knowledge of suite of office software packages. Those interested in applying can complete an employment form on the following website: <a href="http://www.westemployment.com">www.westemployment.com</a> .                                                                                           | 9/7/05 |
| 25 | CULINARY ARTS                                     | <b><u>WLD Ranch</u></b> , 7351 Woolsey Road, Girard PA 16417. Would like to hire a couple Culinary Arts students for after school and weekend work. The duties include preparation of kid-friendly camp food (hot dogs, sloppy joes, casseroles, pizza, etc.). Also included is clean up, sanitation, dishwashing, baking, setting tables, etc. Supervision and help is available – the employee will not be on his/her own. Although the ranch has a Girard mailing address, it is located in Fairview Township – so a west county student may be particularly interested in this job. The camp currently has weekend retreats, but this work will expand to full time summer camps next year. To apply for this job, submit a resume to Mrs. Shaffer. | 9/8/05 |
| 26 | AUTO BODY REPAIR                                  | <b><u>JJ Moore Sales</u></b> , 8119 Wattsburg Road, Erie PA 16509. Would like to hire a couple Auto Body co-op students. This company builds and repairs pre-fab and pre-hung steel and fiberglass doors. Duties include: fixing dents, pre-finishing (sanding, grinding, bondo application, priming) and working in the paint booth. Interested applicants who qualify for co-op should submit their resumes to Mrs. Shaffer.                                                                                                                                                                                                                                                                                                                          | 9/8/05 |
| 27 | ELECTRICAL<br>ENGINEERING/FACILITY<br>ENGINEERING | <b><u>Hamot Medical Center</u></b> , 201 State Street, Erie PA 16550. Looking for a co-op student to assist with electrical work on renovation projects. Job duties include: disconnect electrical circuits, tear out old conduit, replace receptacles, remove and replace light fixtures.                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 9/9/05 |

|    |                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |          |
|----|-----------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
|    |                                                                                                     | <p><b><u>Frano Enterprises.</u></b> Would like to hire an individual interested in caring for children. This company is owned by a family in the e-commerce business and the opportunity is for <b>after school employment</b> (not co-op). Hours are not consistent as they depend on appointments – could be 2 to 6 times a week with hours beginning at 5:00 pm and concluding around 9:00 pm, or it could be a couple hours an evening. There are three children – 3 months, 14 months and 38 months. The family lives near Asbury Elementary School and interested candidates should contact Mrs. Shaffer to apply.</p>                                                                                                                                                                                                    |          |
| 38 | CONSTRUCTION TRADES                                                                                 | <p><b><u>Hamot Medical Center,</u></b> 201 State Street, Erie PA 16550. Looking for <b>co-op students</b> to assist with work on renovation projects. Hamot would like a student with experience in the Electrical area, one with Facility Engineering experience and possibly two Construction Trades students. These openings were filled by ECTS students last year. The students had good work experiences and they performed very well. So, Hamot is coming back this year for more referrals comparable to those we recommended last year! Students interested in applying for these positions (who are being recommended by their instructors) should submit their resumes to Mrs. Shaffer. <b>(Note: I posted this job notice last week and have heard from EET and FEN. Is anyone eligible to apply from CNT?)</b></p> | 9/28/05  |
| 39 | GRAPHIC COMMUNICATIONS<br>(maybe Commercial Art, maybe Construction Trades – for the right student) | <p><b><u>May's Marketing,</u></b> 4726 Pittsburgh Avenue, Erie PA 16509. Would like to hire a co-op student to work with the production of wooden plaques. This involves running an engraving machine, packaging and mailing the plaques. It would be good if the student had an interest in woodworking and/or crafts. The company also does screen printing, embroidery and glass etching – working in these areas is a possibility after demonstrating competency with the plaques. Interested students should submit their resumes to Mrs.</p>                                                                                                                                                                                                                                                                              | 10/02/05 |

| 70 | HVAC         | <b><u>Comfort Heating &amp; Air Conditioning,</u></b> 7532 Pfeffer Avenue, Fairview PA 16415. Would like to hire 5-6 adults with training in Heating, Ventilation and Air Conditioning. The positions are "Installers" who will do commercial and residential installation of systems. The company is looking for committed, honest, hardworking individuals who are concerned about quality. They will have customer contact so professionalism is important. The company is currently turning down business because they don't have enough installers, so they are eager to hire. Education or experience in HVAC is a must – preference will be given to adults in the RCTC evening classes. For an interview, please call the company at (814) 474-5630. | 11/17/05 |
| 71 | TOOL & DIE   | <b><u>Precision Machining Company,</u></b> 9192 Middle Road, Lake City, PA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 1/3/06   |

| 85 | PART TIME – EVENINGS & WEEKENDS | <b><u>Splash Lagoon</u></b> , 8091 Peach Street, Erie PA 16509. Looking for several individuals to work in Maintenance. Job duties include cleaning up, picking up and folding towels, washing windows, etc. Interested individuals should stop by, complete an application form and write that they heard about the jobs at the Erie County Technical School. If you have any questions, call Seth Anthony at 217-1150. He is available at Splash Lagoon Friday through Monday from 9 am to 5 pm.                                                                                                           | 2/3/2006  |
| 86 |                                 | <b><u>Donna Lucas</u></b> , 8891 Hamot Road, Waterford PA 16441. Mrs. Lucas would like to hire a student to develop a website for her business. She makes dolls. This might include evening and weekend work, maybe 1-2 hours a week. If you are interested, you can call her at 868-0008                                                                                                                                                                                                                                                                                                                    |           |
| 87 | GRAPHIC COMMUNICATIONS          | <b><u>Printing Concepts</u></b> , 4982 Pacific Avenue, Erie PA 16506. Would like to hire a co-op student for finishing operations. This includes bindery, cutting, collating, stitching, etc. The student would operate paper cutters, continuous feed folders, stitcher/trimmers, pocket style binders and direct mail equipment. This is an entry level job – the candidate <u>should not</u> expect to move into design or press operation. This employer is looking for a willingness to learn, good work ethic and good math skills. Interested candidates should submit their resumes to Mrs. Shaffer. | 2/23/2006 |
| 88 | TOOL & DIE                      | <b><u>Pendleton Tool</u></b> , 3214 West 22 Street, Erie PA 16506. Would like to hire a co-op student to work in this tool and die company. Job responsibilities include operation of basic machinery such as mills, lathes and grinders. Assembly and disassembly of molds, as well as basic inspection is required. Applicants qualifying for co-op should submit their resumes to Mrs. Shaffer.                                                                                                                                                                                                           | 2/23/2006 |

Interested applicants should submit their resumes to Darlene Hackworth, Care Coordinator, PO Box 181, Harborcreek PA 16421 or e-mail summerlohr@hotmail.com.                                                                                                                                                                                                                                                                                             |           |
| 93 | SUMMER VOLUNTEER WORK             | <b>The Erie Zoo</b> is currently recruiting for its summer volunteer program for teens. The EdZooCrew Volunteer Program is seeking 35 enthusiastic, motivated, mature and responsible teens (ages 14-18) to spend the summer doing volunteer work at the Zoo. These volunteers will be trained to communicate their knowledge of animals and plants to people of all ages. They will develop leadership and public speaking skills, as well as build upon their understanding of the natural world and the role of Zoos in conservation. Interested students must apply before March 16 by submitting an application, parent permission forms and two teacher recommendations. Applications forms may be obtained from Mrs. Shaffer | 2/27/2006 |
| 94 | CONSTRUCTION/FACILITY ENGINEERING | <b>Jeff Semczuk</b> , a local plasterer is looking for helpers, age 18 years and older. Jeff does plastering and exterior stucco work and would like to hire individuals familiar with scaffolding setup and takedown. Some knowledge of masonry is helpful. He will train on the fine points of plastering. The work is VERY physically demanding (must lift 80-100 pounds at times). Interested individuals should submit their resumes to Mrs. Shaffer                                                                                                                                                                                                                                                                           | 3/6/2006  |
| 95 | COSMETOLOGY                       | <b>Shear Delight</b> , 4348 Iroquois Avenue, Erie PA 16511. Looking for two entry level employees to work as a hairdresser & receptionist and massage therapist. These individuals should be serious, hard working, good people who are willing to stay and grow with the company. Interested individuals can call Pam Turner at 899-1877.                                                                                                                                                                                                                                                                                                                                                                                          | 3/14/2006 |

| 117 | AUTO TECHNOLOGIES OR A JOB FOR SOMEONE WITH GOOD MECHANICAL SKILLS | <b><u>Family First Sports Park</u></b> , Oliver Road, Erie, PA 16509. Looking for a go-kart mechanic with good skills in engine maintenance and repair. This job can begin as a co-op (or evening and weekend work) now, then continue as a summer job. The work will end in September. Interested applicants should submit their resumes to Mrs. Shaffer.                                                                                                                                                                                                                                                                                              | 4/7/2006  |
| 118 |                                                                    | <b><u>Thor O Tire, Inc.</u></b> , 5775 Route 6N, Edinboro PA 16412. Looking for an automotive service technician to perform mechanical work and preventive maintenance on vehicles. Oil changes and tire rotations are also a part of the job. Paid holidays, paid vacations and paid hospitalization after an internship will be offered to individuals who prove themselves during the probationary period. Interested applicants can submit their resumes to Mrs. Shaffer, or stop by the company to fill out an application between 8 am and 5 pm.                                                                                                  |           |
| 119 | SUMMER JOB                                                         | <b><u>Goodell Garden &amp; Homstead</u></b> , Route 6N, Edinboro PA 16412. Would like to hire a student interested in gardening and horticulture for evening, weekend and summer employment. This person would work as an outdoor gardener weeding, transplanting and watering plants. Landscaping is also involved. This homestead will be open to the public for tours, so the candidate for this job should be interested in learning the names of plants and flowers and be willing to speak to guests and visitors. Good, reliable transportation is required. Students interested in this summer job should submit their resumes to Mrs. Shaffer. | 4/7/2006  |
| 120 | Construction Trades/Facility Engineering                           | <b><u>Kodrzycki &amp; Son Masonry</u></b> Would like to hire graduates or current students with construction backgrounds to work in bricklaying positions – building and repairing chimneys and fireplaces.                                                                                                                                                                                                                                                                                                                                                                                                                                             | 4/11/2006 |

|     |                                           | list as well as developing new business. Compensation is commission based. Benefits. No phone calls please. Please mail resumes to WSEE Director of Sales at the above address. WSEE is an Equal Opportunity Employer.                                                                                                                                                                                                                                                                                 |           |
| 125 | COMMUNICATIONS                            | <b><u>West Communications</u></b> , 2323 West 28 Street, Erie PA 16509. West Communications has openings for the following positions: HR Production Employment Supervisor, Training Manager, Custodian, Customer Care and Customer Service Representatives. Apply in person – come dressed professionally and prepared for an interview. Bring a valid photo ID and a secondary form of identification. Call 836-2424 if you have any questions. The Job Line is 836-2401.                             | 4/18/2006 |
| 126 | TOOL & DIE                                | <b><u>Ericso Industries, Inc.</u></b> , 1133 West 18 <sup>th</sup> Street, Erie PA 16512. Would like to hire a Machine Setup Person. Must be able to use micrometers, calipers and other measuring equipment. This job involves responsibility for prototyping and communication among operators, toolroom, maintenance and quality assurance personnel. Candidates may be graduates or co-op students with good mechanical skills. Interested applicants should submit their resumes to Mrs. Shaffer. | 4/21/2006 |
| 127 | AUTO TECHNOLOGIES                         | <b><u>Firestone Tire &amp; Service Center</u></b> , 573 Millcreek Mall, Erie PA 16565. Would like to hire two individuals to work in automotive repair. To begin these jobs would mostly include oil changes and tires – as the individual progresses, more involved jobs would be assigned. This could be a co-op job or a job for a recent graduate. Interested individuals should submit their resumes to Mrs. Shaffer.                                                                             | 4/25/2006 |
| 128 | AUTO TECHNOLOGIES OR FACILITY ENGINEERING | <b><u>Lake Front Mower</u></b> , 2142 East Lake Road, Erie PA (near the General Electric Plant). Would like to hire an individual who is self motivated and shows initiative. This work (small engine repair) includes lawn mower and chain saw repair, as well as tune-ups, cleaning and assembly. Good mechanical skills are a must. Please submit resumes to Mrs. Shaffer                                                                                                                           | 4/25/2006 |

| 134 | INDUSTRY JOBS FOR GRADUATING SENIORS WITH MECHANICAL ABILITY | <b><u>Molded Fiber Glass</u></b> , 55 Fourth Avenue, Union City PA 16438. Would like to hire <b>40 individuals</b> to work in the fiber glass industry. Duties are similar to those skills taught in Auto Body – sanding, grinding, finishing (fiberglass) items such as boats. However, if a candidate does not have auto body experience, the company is willing to consider those with good work ethics, good attendance & attitudes and decent mechanical skills. Wage and benefits offered. Interested individuals should submit their resumes to Mrs. Shaffer.                                            | 4/27/2006 |
| 135 | INDUSTRY JOBS FOR GRADUATING SENIORS WITH MECHANICAL ABILITY | <b><u>Formtech Enterprises</u></b> , Fairview Industrial Park. Formtech is seeking applicants with aptitude and good attitudes for the positions of extrusion technicians. Will train the ideal candidate with mechanical skills, a willingness to learn, problem solving skills, mathematical abilities and a keen attention to details. Reliability, pride and ability to work as part of a team are required traits. Wage and benefits offered. Interested individuals should submit their resumes to Mrs. Shaffer. Infinity Resources will come to ECTS to interview candidates.                            | 4/27/2006 |
| 136 | AUTO BODY REPAIR                                             | <b><u>Cramer Motors</u></b> , 10215 West Main Road, North East PA 16428. Would like to hire a junior to work this summer, then go into a fall co-op. This individual would work in the body shop – sanding, grinding, masking, prep, etc. Juniors who qualify for co-op should submit their resumes to Mrs. Shaffer.                                                                                                                                                                                                                                                                                            | 4/28/2006 |
| 137 | SERVICE TECHNICIAN FOR PLASTICS                              | <b><u>Erie Plastics</u></b> , 844 Route 6, Corry PA 16407. Would like to hire a Service Technician. This position is responsible for troubleshooting, repair and maintenance of “cold end” automated equipment. Candidates must have a strong mechanical and electrical background, be proficient in PLC control systems, DC drives, control logic and photo optics. A two-year technical degree in mechanical technology and a minimum of five years experience in the maintenance and repair of automated equipment is preferred. This opening is on the night shift – a 12 hour rotating shift, 36 hours one | 4/28/2006 |

|     |                                | requirements are 10 – 20 pounds. Good math and measurement skills are needed – must be able to work with decimals and fractions. These are long term temporary positions (the company typically lays off in January and February). New hires will train for one month on first shift, then transfer to second shift (3 pm until midnight). Interested individuals can contact Mrs. Shaffer for information on how to apply.                                                                                                                                                                                              |           |
| 144 | AUTO BODY REPAIR               | <b><u>A private individual</u></b> would like to hire an auto body student to fix up her car. It is a 1996 Nissan that has rust and scratches. A capable Auto Body student who would like to pick up some extra bucks can contact Mrs. Shaffer for more information.                                                                                                                                                                                                                                                                                                                                                     | 5/3/2006  |
| 145 | PAINT TECHNICIANS              | <b><u>Hanes Erie, Inc.</u></b> , 7601 Klier Drive South, Fairview PA 16415. Looking for two paint technicians. These positions are in the coatings department and require mechanical aptitude and an eye for color matching. The jobs pay \$10/hr. in addition to health care, vision, dental, short term disability/life insurance, 401(k) and vacation benefits. Job duties include: making sure the parts are on line correctly and the process is running smoothly (color, balance and quality) and making adjustments as needed. Interested applicants should contact Mrs. Shaffer for information on how to apply. | 5/3/2006  |
| 146 | METAL FABRICATION & TOOL & DIE | <b><u>Automation Devices</u></b> , 7050 West Ridge Road, Fairview PA 16415. Looking for employees in the areas of metal fabrication, welding and machining. These are full time jobs with benefits – co-op is a possibility. Those interested should visit the company's reception desk and complete an application form, or submit a resume to Mrs. Shaffer to fax to the company.                                                                                                                                                                                                                                      | 5/3/2006  |
| 147 | INDUSTRIAL ASSEMBLY JOB        | <b><u>Olsten Staffing</u></b> would like to hire employees for an <u>east side company</u> in the city of Erie at \$7.00 to \$7.50 per hour. This job is assembly – heating up pieces and pushing them together. Lifting requirements are 10 – 20 pounds. Good math and measurement skills are needed – must be able to work with decimals and fractions.                                                                                                                                                                                                                                                                | 5/11/2006 |
