

RCTC Report
December 2006

RCTC

Term II is ending and we will be advertising our Term III schedule of classes over the next few weeks. Registration begins January 2 and classes begin the week of January 22.

We will need to hire a new welding instructor as one of our instructors has been moved to second shift at his full time job.

To complete the updating of our medical technology classes, there will be a meeting with all the instructors to ensure the same program goals and a smooth transition for students from one class to another.

Two local companies have inquired about possible customized training after the first of the year and we will be developing proposals to address their needs.

New Choices/ New Options

Our next class will begin on January 8 at the Mercyhurst West location.

A statewide information session for all project directors is being held on December 14 and 15 in State College. Pennsylvania Women Work received a technical assistance grant from PDE to facilitate the meetings this year.
