March 5, 2008

Dear Committee Members,

As you may know, the Drafting & Design class is taking a group of students on an Engineering/Architectural concentrated field trip to Nevada on May 8-11, 2008.

Our total budget is \$11,400.00. This is calculated at \$950 per person for 12 people attending the Drafting & Design field trip.

To date: \$8100.00 has been raised.

Scheduled fundraiser: Tee shirt and sweatshirt sale - anticipated \$300-500

We would like to request a Foundation contribution to help offset the remainder of our target amount.

Amount requested: \$3,000.00

Having this type of field trip experience will give students many personal experiences to draw from as they enter their college studies, and they will be able to apply the things they learn to their future careers. The E.C.T.S. Foundation would be contributing toward enabling these deserving students to stretch beyond their current circumstances, experience engineering and architecture first hand, and hopefully give them ideas to use a springboard to launch them into their post-secondary field of study.

Thank you very much for your consideration. I look forward to your response.

Mariea Sargent
Drafting & Design Instructor
