

Dear Board Members,

The National Technical Honor Society would like to thank you very much for giving us the experience that you allowed us to have in November at Penn State. Once we found out that the school board was going to fund this trip we all knew that it was going to be a time to remember. We have done and attended so many things that came to our benefit and most of all we had a lot of fun.

On the first day we attended the Penn State basketball game which was one of the events that we could not experience without your help. The creative approach confirmed some of our desires to attend Penn State because we saw the amazing display of school spirit and team work that was present. After the game we went to the hotel where we all got to spend time to get to know each other a lot better. At our meetings we converse with each other but after our visit we all became best friends.

Our last day was the climax of our trip. When we woke up early in the morning the National Technical Honor Society went down in the banquet room where we had an extravagant breakfast. After the breakfast, we attended the conference which was the essential reason why we asked for the school boards' support. We listened to an inspirational speaker about us students becoming future technical teachers. This speech was intended to encourage us to guide future students that may be interested in the technical trades and help form future generations to make the United States a better and more efficient place to live in.

As the National Technical Honor Society we would like to thank you again for the opportunity you gave us in November. With the involvement that we had at Penn State we would hope that you would allow future NTHS members to experience what we have seen and done.

Sincerely,

John G. Giam *Amanda Slupski* *Andrew John Wingo*
Nichole LaMaye *Samuel*
Alanna Wehler *Angie*
Devin Smith *Will Pitone*
