July 10, 2008

Dear Dr. Jackson,

Over the last few weeks, I have wrestled with an employment opportunity at James W. Parker Middle School in the General McLane School District. As you know, I spent thirteen years teaching science in Millcreek at the middle school level, and have an attachment to that age student. I have been very fortunate to have the opportunity to work at ECTS for the past three years, and although I really did not see myself leaving this soon, I have accepted the principal position at Parker Middle School.

I want to thank you, Aldo, for all of your guidance, support, and the "opportunities for growth" that you provided me with at ECTS. Although we may have had an occasional difference of opinion, I always felt that you valued my opinion, and always seemed willing to listen with an open mind. I feel that you and I complimented each other very well over the past three years.

Please accept my resignation as principal at the Erie County Technical School, effective July 31, 2008. Thank you for this opportunity, and good luck in your search for a replacement.

Sincerely,

John B. Hansen
