

January Technology Board Report

January 15, 2009

Desktop Systems

Cables have been installed in the Eagles Nest, Cafeteria, and the Professional Skills classrooms as the first stage of implementing their respective Digital Classroom planned equipment.

Installed a computer and phone in Room 9 for the new Math Resource Coordinator, Tammy Bright.

Continued working with the Graphics Lab computers in effort to deploy Adobe CS3 to the entire lab.

Network Systems

Prepared the email and backup servers for an e-mail archiving process to support e-Discovery and other record retention mandates. Working with Tim Wachter at Knox McLaughlin Gornall & Sennett to develop policy and plans accordingly.

Vendor

Received and assisted with the installation of the new Color copier in the Skills Center from Kubinski Business Systems.

Received and assisted installing an all new replacement Cogent Systems FBI Fingerprinting station for this service. Repeated instability with previous equipment finally led to complete replacement. It has been working smoothly since it's installation.
