June 1, 2009

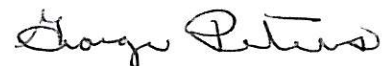

Dear Dr. Jackson and Members of the Board
of the Erie County Technical School,

In recent years, there has been an increasing concern in the regional farm community about the lack of opportunities for youth to obtain training in agriculture and environmental science. This has manifested itself in discussions at our annual meeting of members in recent years. Our board has written you and at last year's meeting, a motion from the floor was made to petition you to initiate training at your school. Agribusiness is the dominant vocation in our state and, quite frankly, we do not understand this void in the county's public educational system.

Please consider the enclosed petitions as a sincere request to implement a program of agricultural and environmental education.

I look forward to hearing from you in this matter.

Sincerely,

George Peters,
President

Dr. Jackson, would you please copy the petitions for your board members?
Thank you.

PLEASE SIGN HELP OUR YOUTH

Whereas agriculture is the #1 industry in Pennsylvania, we the undersigned feel that a program of Agriculture/Environmental Resource Management should be offered to Erie County High School students.

Please sign this petition - Thank You
