

High School Activity Report

May, 2009

DDE Winners:

The ECTS Drafting & Design lab had students participate in the 18th Annual Drafting Competition held at the Butler Community College during the last week of April. Our lab was the “overall” champion for the fourth year in a row! Five students placed in the top two spots:

First Place: Cody Brown of General McLane in Architectural CAD, Jacob Davis of General McLane in Mechanical CAD, Amber Taylor of Seneca in Architectural Board Drawing, and Igor Belousov of Girard in Mechanical Board Drawing.

Second Place: Andy Fritz of Seneca in Mechanical CAD.
Congratulations to Mrs. Sargent and all the DDE participating students!

Portfolio Reviews:

The end of the year is very apparent! Many of our labs are conducting their Senior Portfolio reviews which is a superb avenue for the seniors to show-case their many accomplishments at ECTS. The Guidance staff and I have been part of many of the reviews and the students have done an outstanding job preparing for this process.

“In-House” Awards:

The annual “In-House” Awards will be given out by Mrs. Palo, the lab instructor, and me on May 29th in the individual labs. Each instructor had the opportunity to honor five AM and five PM students for excellence in “Leadership, Safety, and Work Ethic.” The recognized students will receive an ECTS T-shirt and a Certificate for their accomplishment.

Senior Awards Ceremony:

On Tuesday, June 2, 2009 at noon, all seniors will meet at the MIHS Little Theatre to practice for the ECTS Awards Ceremony. The actual ceremony will be held on Wednesday, June 3, 2009 at 7:00 PM at MIHS Little Theatre. All members of the JOC are invited to attend.

Last Day for Students:

Can you believe it – the school year will conclude on Wednesday, June 9, 2009 for our students; and on Thursday, June 10th the instructors will complete their final day. As the principal, I count myself extremely fortunate to be working with these outstanding students, but even more so, that I have such a great staff to instruct these students.
