

May 27, 2010

Dear Committee Members,

As you may know, the Erie County Technical School National Technical Honor Society is alive and well. In fact, on May 4, 2010, at the Ambassador Banquet and Conference Center, seventeen new members were inducted. However, there are some costs associated with this prestigious group. There is a cost associated with conducting the Member Induction and Installation Ceremony. Membership and accompanying documentations are financed by student run fund raisers.

The purpose of this letter is to request that the foundation contribute \$750.00 to cover this years' cost and also to request that the foundation reserve \$2,500.00 for next years 3rd annual National Honor Society Meeting which will be held Tuesday, October 26th, 2010 at Penn State in University Park, Pa.

The National Technical Honor Society is a great opportunity to reward ECTS students who exhibit it knowledge, honesty, responsibility, citizenship, skill, service, scholarship, and leadership.

Thank you for your time and consideration.

A handwritten signature in blue ink, appearing to read 'Robert Craft', with a stylized flourish at the end.

Mr. Robert Craft
