SUBJECT: Prayer Walk at ECTS

I would like to organize a Prayer Walk here at the Erie County Technical School. My church Sunday School class has been doing these for about a year and have done all the schools in the Fort LeBoeuf School District to date. I had received permission from the school board and all the principals of the district schools. Now I would like permission for our class members along with some of the employees of ECTS to do this walk. We would do this on an evening that nothing is going on in the school which I'm thinking would probably be a Friday evening. We are looking forward to praying for the school, the employees and students. Thank-You for your consideration.
