

October 2009

Human and Quality Resources Report

ISO.

The ISO audit was conducted by Steve Pettyjohn of SRI and the formal audits results are available in supplemental information. In summary, the audit went very well and we received no non-conformances. As you can see from the audit report there are quite a few areas that the auditor feels are done quite well. ECTS would like to thank David Rogers for his time he spent with us during the audit.

Staff Development.

Staff development continues to be discussed as we establish topics for MAD Wednesday which include continuation of some classroom management and some safety training. The additional classroom management comes as a result of some suggestions from faculty from the evaluations from in-service. In addition, we are in the process of beginning our technology training for the classified staff.

Recruiting.

At this point, recruiting is quiet except for the recruitment of some additional subs. Some subs on are list have limited availability so we are trying to expand the list as the year goes on.

PIMS.

PIMS has been completed at this point and accepted. The exceptions that have come back are explained by the vocational track that our teachers take vs. the traditional already degreed teacher. In addition, our SUPPER, the report PDE requires for support staff, has been submitted and accepted.
