“For me, it was the desire to experience the creativity of Culinary Arts that brought me to the Erie County Technical School. I plan to attend Johnson & Wales to earn a bachelor’s degree in Food Service Management. Then I want to open my own restaurant and start my own cooking show.”

“My decision to attend ECTS was the best decision of my school career. I get to spend time every day working in a field that I enjoy and I also learn how the skills that I am developing will apply to a future career. I am planning to attend PTI and earn an Associate Degree in Network Administration/Computer Forensics.”

“Most of my memories of my grandmother are those of her lying ill in a hospital bed. At an early age, I knew I wanted a career in the medical field where I could help people who were in my grandmother’s situation. Now I am well on my way to becoming a registered nurse. Because of ECTS, I am confident and prepared for the beautiful future that lies ahead of me.”
