

**ERIE COUNTY TECHNICAL SCHOOL
PROPOSED AGENDA ITEM**

DATE: January 26, 2011

SUBJECT: Ch. 339 Approved Program Evaluation Appeal

CATEGORY: Operations

INITIATED BY: Aldo Jackson

DESCRIPTION: Based on the final report of the Bureau of Career and Technical Education's Approved Program Evaluation, the administration surmised there were deficiencies in the audit process and the subsequent results. The Bureau noted 12 corrections in the final report. The administration regarded eight of the corrections as being at fault. Administrative staff members conducted post-audit reviews of the corrections and the associated evidence. In those reviews, we found, in our opinion, sufficient discrepancies to warrant an appeal of the findings.

After reviewing the audit, findings and appeal rationale, an endorsement by the operating committee would be helpful to the appeal process.

MOTION: Motion to authorize the administration to submit to the Pennsylvania Department of Education, Bureau of Career and Technical Education an Appeal of Findings based on the Approved Program Evaluation Final Report of December 21, 2010.
