

June Technology Board Report

June 17, 2011

Desktop Systems

Entered a Microsoft Campus/School Agreement for all desktop and server operating systems, and our office productivity applications.

Reviewed school computer inventory for considerations for upgrades and reduction. Repaired and isolated issues with deployable computers in spare parts inventory. Reviewed laptop carts for battery issues and opportunities for improvement.

Reviewed Laptop Cart Schedule, and modified to increase availability for all labs campus wide.

Worked with Dell to detail specifications for new computers for 11-12 budget rotations.

Deployed an upgraded computer with Windows 7 to Patrick Holland.

Network and Server Systems

Installed SQL 2008 Server Standard in preparation for Student, Parent, and District Portal launch and performance improvements.

Implemented a new online hosted SPAM protection service so that we can decommission one of our email servers, in addition to trying to improve our SPAM reduction services.

Worked with Lisa Sorensen and Tiffany Neely to complete the Admissions Database import to SchoolDESX.

Worked with Joe Tarasovitch and Pam Lasher to complete the Safe Schools PIMS submission.

Continually improved the District Portal to better represent data fields in collaboration with the Child Accounting administrators from each district as they helped reconcile the data with us.

Staff

Started Summer Help Staff Michael Stoddard and Steven Pavlolkko.
