

January 11, 2013

Dear Committee Members,

As you may know, the Erie County Technical School National Technical Honor Society is alive and well. In fact, on May 1, 2012, at the Ambassador Banquet and Conference Center, twelve new members were inducted. However, there are two main costs which are associated with this prestigious group. There is a cost associated with conducting the member Induction and Installation Ceremony, and there is an additional cost for membership and accompanying documentation. This year the total cost was approximately \$1200.

The purpose of this letter is to request that the foundation contribute \$1200 to cover this year's cost. The National Technical Honor Society is a great opportunity to reward ECTS students who exhibit knowledge, honesty, responsibility, citizenship, skill, service, scholarship, and leadership.

Thank you for your time and consideration.

A handwritten signature in blue ink, appearing to read 'Robert Craft', is written over a faint, larger version of the same signature.

Mr. Robert Craft

NTHS Advisor
