

Erie County Technical School

Website Design & Development

Statement of Confidentiality

This proposal and supporting materials contain confidential and proprietary business information of Werkbot. These materials may be printed or photocopied for use in evaluating the proposed project, but are not to be shared with other parties. The value of Werkbot's services are based on our ability to generate, actualize, and sustain web related communication systems for businesses and non-profits such as your own.

Organization

Werkbot is a close-knit, highly skilled team, delivering beautiful digital projects to global & local businesses from our office on the 8th floor of the Renaissance Building located at 1000 State Street, Erie, Pennsylvania. Our location has conference, programming, production and executive suites.

Brian Amick - *Creative / Partner*

Brian is designer and co-founder who brings 14 years experience from advertising, digital media and education. He currently serves on the Erie Phil Board of Governors, and has previously served as President of the Erie Ad Club.

Jay Richardson - *Development / Partner*

Jay is lead developer and co-founder who has spent the last decade coding and writing apps, developing databases, interactive flash games and custom back-ends from scratch.

David Ruler - *Business Development*

David leverages 25+ years of Sales & Marketing business leadership creating, executing, and managing campaigns, programs and growing businesses in education, life sciences, electronics, media, food, insurance software, professional consulting, performing arts, and non-profits.

Aaron Gast - *Account Management*

Aaron has over 16 years of management and customer service experience at both corporate and small Business levels. At Werkbot he translates the technical capabilities of the design and development team into actionable plans with clear features, advantages, and benefits that meet the objectives of project stakeholders.

Katie Fish - *Content Developer*

Katie specializes in developing relevant, useful and engaging content that supports specific business goals, and has worked with organizations in the manufacturing, retail, and non-profit sectors.

Bobby Snow - *Development*

Bobby heads up iPhone and Android development. His knowledge of front-end and back-end server side coding is second to none.

Cody Stivanson - *Front-End Development*

Cody is a front-end master, who focuses on Responsive design, and making sure that websites load and function on all browsers and devices.
