PROPOSED AGENDA ITEM**

DATE: June 25, 2015

SUBJECT: Curriculum

CATEGORY: **Operations:** X **Policy:** **Information:** **Personnel:**

INITIATED BY: Jan Kennerknecht

DESCRIPTION: Mr. Jaeger has developed a 2015-2016 course sequence chart that will allow him to not only meet the PA Program of Study requirements for his new CIP #46.0399 (Electrical and Power Transmission Installers) but will also allow him to “toggle” instruction for the PM sessions. PM Level II and III curriculum would be taught in alternating years, allowing the instructor to address the entire PM class as a group. Many of our programs operate in this way, increasing the time that can be spent on more focused instruction.
