

Erie County Technical School

Superintendent of Record's Report

October 23, 2014

Professional Advisory Council (PAC) Meeting - Friday, October 3, 2014

Submitted by Karen S. Downie, D.Ed.

Erie County Diploma Program

Joan Stizinger and Donna Smith provided the following updated information pertaining to the Erie County Diploma Program:

- Currently there are 18 people enrolled in the daytime program is being held at the City Mission
- 9 students are enrolled at the Porreco College site
- 5 students are enrolled at the Corry site
- Sufficient funding for Erie County has been obtained for the 2014-15 school year so school districts will not need to contribute any funding

ECTS Renovation

The financial information that was shared with the JOC at the September meeting was shared with the Superintendent's.

All area schools are in very different financial situations and many are dealing with building projects in their own districts and being at various stages of readiness for the anticipated increases in medical, retirement, and salaries. However, it was the consensus of the Superintendents that they wanted to find a way to support a renovation project at the ECTS.

After much discussion it was suggested that the renovation project be moved out one year so that the first bond payment would be due during the 2016-2017 school year. With the one year postponement, all those present believed that they would be in a position to present to their respective school boards for approval, a budget that incorporated the first 15 year bond payment.

Discussion also centered on the hope that with the potential changed to the PlanCon regulations, that there might be a chance for some reimbursement for the ECTS project. It was suggested that Dr. Jackson contact the architect to determine if the work outlined in Bond #1 or Bond #2 would be best to fund through PlanCon if it was available.
