

Admission Coordinator Board Report – Lisa Sorensen

October 2014

October is a very busy month in Admissions. I will visit each sending school and give **51** presentations to all freshmen. This presentation includes a self survey to determine each student's career personality and begin to lead students to an area they have the most aptitude for and interest in. After learning about the 16 programs ECTS has to offer each freshman chooses 3 to visit and have an "Experience" in. Each student will have a name badge printed with their name, school, and the 3 programs they are visiting when they enter the building in November.

A faculty meeting was held to give the instructors information on the November Showcase visits of each school. Roughly, **2000 potential freshmen** will come through ECTS and participate in an activity in 3 programs.

Open House postcards for freshmen and their parents are being printed and will be mailed the first week of November. **New student Open is November 20 from 4:30 – 6:30.**

Graphic Communications is designing and printing Open House posters to be displayed in each sending school.

The first quarter Guidance Counselor meeting was held on October 10. The Counselors have worked hard to coordinate my presentations in their home schools and the trip to ECTS in November.
