

1	It does not affect me now because I am in the AM but next year in the PM I would miss an hour of practice and sometimes all of practice.
2	Going to the ECTS in the AM does not interfere with my after school activities. If I stay next year and go to ECTS in the PM the schedule will interfere with my involvement in sports.
3	The PM is late to practice after school
4	For soccer in the upcoming seasons we have games where we may get out earlier because we are in a new division. If I were a student in the PM it can also be a problem because I have practices right after school and the bus wouldn't bring me home until around 3:45, in which the practice is nearly half way over. Also, there is a possibility that we could have a game right after school as well, making me ineligible to play in it which is not satisfactory.
5	I was kicked out of a lot of my after school activity's because I either could not go to the meetings or I could not take the available classes. It has been hard to balance everything when certain choices are not available.
6	If anything we should have MORE time at ECTS!!
7	While it has not affected me yet, the PM students that are in sports show up late to practice every day. I think that it is reasonable because it is normally only by about 15 minutes. They should be provided the offer of leaving Tech early by driving themselves. Our time here is already too short for the entire school to have to suffer for the few students that are in sports.
8	Late for practices after school.
9	I've noticed that people can't attend assemblies or practices.
10	pep rallies
11	Because of tech my work schedule is constantly a mess due to the bus schedule is never the same when I get dropped off at home.
12	yes it does with my work I don't get home till 430 and have to ride the elementary bus I also would have played sports but I wouldn't get to school until 330 and practice would have already started
13	Northwestern students get to the school, after tech, at 3:20pm. Cheerleading and other school activities start at 2:30 (right after school.)
14	Sports typically start right after school and we don't get back to the school until an hour after they get out.
15	I did marching band in the first and second quarter at Iroquois and at times I would be late to some of the practices, because they were right after school. Many of the activities or clubs at Iroquois I could not join, simply because every meeting was right after school. Many of my after school auditions for choir I would have to audition for before I left for tech.
16	most of the activities take place as a class that when at tech you cannot take.
17	it effects me doing a lot of cheerleading practices and being at the pep assemblies and all those things.
18	It makes me late for practice because I don't get back to my home school till 3:15ish and practice starts at 3.
19	My school's chapter of the National Honors Society meets during the last period of the school day and seeing as I am in the afternoon program, I am unable to attend any of the meetings. This has made it so that I could not run for any office within the chapter.
20	We get home too late
21	i would've like to have done chorus or art or foods or picked my classes instead of having to be assigned certain ones.
22	Since we end at 2:45 I have to rush back to McDowell on a daily basis during soccer season. Normally I am about almost 50 minutes late for practice due to us ending at a later time.
23	as far as elective classes, I am not able to be in the orchestra class or any music related classes at the school because of being enrolled here, but the education that I am receiving here is far more valuable than any music classes will ever be
24	It is mostly affected by work rather than school
25	It interferes with practices and meets/games, especially when your team leaves early for a meet/game.
26	I get to my practices late. I miss my Stretching because of it.

27	Because I don't get back until practice is mostly over
28	late for practices
29	Work and being with friends and family
30	Our practices for sports start at 2:45 and every day I am a half an hour late to practices, and sometimes that is half of our practices.
31	I will be late to track everyday.
32	Sometimes we have band practice directly after school, and I have to miss it/lose time because I have no way to get there on time without leaving early from tech.
33	since I am in pm session I cannot swim for Iroquois because I would miss part of practice.
34	Well some of my matches occur right after I leave for/get to tech so I either have to miss it or go for part of the class period.
35	I have to show up late to practice some times
36	After tech I can either drive or ride the bus, but regardless of what choice I make, I am still late and miss part of the warm up for wrestling and track.
37	I have to leave for tournaments and competitions so I am not here on some days, and those days I am not here it affect my grades.
38	If you have a job that you go to after school, getting out later than your homeschool often interferes with my availability with work. It is often a minor annoyance, but not a pressing issue.
39	its not extra- curricular but sometimes its hard to get to work
40	Sometimes I have to go into work later than I should since I don't get home until later.
41	It helps me play cricket better
42	I have practice for track and field right after my home school lets out so I show up at practice late.
43	My activity requires me to leave school early every month or two. My class is hard to miss and make up the work on.
44	I am about twenty minutes late for wrestling practice every day
45	I wouldn't get to practice on time
46	in track I miss the first five minuets of practice, it's just the warm up jog so it's not a huge deal.
47	I don't get back to Seneca in time for practice because normally practice is right after school
48	i miss the first 30 minutes of practice and the meetings right after school. and because im a cheerleader I have to be at the pep assembly. and I miss meetings
49	I leave class early on Thursdays in the winter to make it on time to the extra-curricular activity.
50	When I was in marching band for my school, we were always late because of the bus came after the start of practice.
51	It affects my extra-curricular activities because by the time I get to practice they have all ready started and I miss out the full first half. Also, when we have an away match sometimes I have actually missed the bus and had to drive out to the school where we are playing.
52	Whenever I go to practice I arrive 30 minutes late
53	During the soccer and track and field seasons, I arrive to practice late and become behind. On days that we have away games or meets, I have to be picked up by a guardian and taken to the team bus.
54	Miss the start of practice
55	If my bus is late, I'm late for work
56	It sometimes effects my work scedule
57	I have softball practice at 3 and my bus doesn't get back until 3:20, it isn't a big deal because I have a very understanding coach
58	Being an ECTS students my sports are affected only because of the bus being back to the school later than what time my practices, and when we have away games I don't get to attend tech because of having early dismissal at my home school.
59	I want to go home and play games and have some free time but I'm absolutely overwhelmed with busy work that our teacher LOVES to give.

60	not at homeschool enough to be able to go to the meetings held during school hours
61	Late to practices.
62	I miss half the after-school practices.
63	no
64	I work after school and I have to rush home right after school.
65	Yes, because then i will be getting to practice a bit late every day, and when we have to leave early for a track meet i wont be able to participate in tech that day. Getting to work can also be difficult and i can't get extra hours if i were to want them.
66	The time we get back makes me late for practice everyday
67	I only have 30 minutes to do after school homework help, but it starts at 2:51. I get there at 3:30. If I got there early I will have a lot more time to get help on my homework. Homework help ends at 4:00.
68	Not only am I already late because McDowell lets out at 2:15 and Tech lets out at 2:45 but by the time I get to McDowell and get changed I am already roughly about an hour late. Honestly, I wish I had more time at tech and track is seasonal so it does not effect me all year round.
69	I decided not to pursue band any further because it interfered with my schedule at tech as an AM sophomore last year. Tech this year prevents me from arriving on time for art club at fairview on Wednesday afternoons, which is inconvenient because I am an officer there and am expected to be there. Fairview dismisses at 2:15 so not only are we in class for an additional 30 minutes, but the bus ride home tacks on an additional 30 minutes, I don't arrive at art club until 3:15, and it ends at 4:00.
70	I cant get to work at the time that they want.
71	band because its at the end of the day
72	When marching band season begins, my band director will have sometimes have after school practices. Since I go to PM tech, I usually miss the first 20 - 25 minutes of practice because my bus is still coming back from the school.
73	Have to skip tech certain days to attend sporting events
74	I only can attend the last 5 minuets of jazz band. Im the lead alto, i need to be there all the time. I also have trouble scheduling work and robotics because of how late i get home.
75	We have away games and I end up missing Tech to go to my away game and I miss practice and or late to practice
76	Due to the fact that tech ends later than my home school, I am always about 20 minutes late to marching band.
77	Being an ECTS student, my lunch is during the time the rest of my school is in tutorial. Most think that tutorial is just a time to do homework or see other teachers but at my school this also tends to be when we have assemblies and meetings but because I have lunch I am unable to take part in them. This makes me angry because I can't get involved in anything even if I wanted to.
78	We always have Pep Rallys and talent shows that I can never make it back on time to be involved with. Plus I wanted to play softball but I wouldn't get back in time to make the start of practice. It kinda really sucks.
79	I miss some time next year with practice right after school
80	if i had ects in afternoon this year then yes it would take 10mins off my pracite
81	I loved doing broadway dinner last year, however since i enrolled in Tech i have not been able to join it.
82	next year I will be in pm tech and because my school gets out at 2:20 practice for me is right after school and I will be late for practice
83	As of this year it does not interfere too badly but next year being a pm student it will interfere with pep rallies and band practices as well as my job possibly.
84	Only the time when it comes to pep rallies. The color guard performs at pep rallies and I am in color guard but I am at tech during that time.
85	I can't go to Library Literacy Club meetings very often because they take place during tutorial, which i am not at school for.
86	no
87	Once I become a pm student I will not be able to attend some soccer games because I will not get back in time.

88	Fairview bowling
89	because tech takes away our intervention. Sometimes after missing a day of school I need intervention to at least go pick up my homework or anything I missed in any classes and I cant do that with tech
90	it will interfere with soccer
91	It has given me knowledge about welding and helped me at the robotics program
92	
93	sometimes when I get out of practice or the games its really late and Im really tired. so then I get ready for school the next day and go to bed. therefore I don't get my homework done sometimes.
94	After school soccer, will become a problem I believe because we have to leave early for games a lot during the season and General McLane makes you go to PM tech in 11th grade. So that will most likely become a major problem.
95	Sometimes we have morning practices and I cannot attend them because the tech bus leaves before practice is over. Also sometimes we have day activities for PBIS or Lead and Seed that I have to choose which to attend that day.
96	being in tech devolopes interest for class, I do custom or self designs on my freetime.
97	All of the homeroom meetings are missed as I am at ECTS, which will change next year as I will have a homeroom at my home school.
98	I ski and sometimes I have skipped going skiing because of tech work.
99	yes because I work on cars and trucks after school
100	I can't really do anything fun. The class is draining, the drama is excessive and follows itself out of the classroom.
101	N/A
102	doing work
103	partake in RCI courses and some AP courses at Girard because of tech, and I was also told it was impossible for me to be a member of Girard's National Honor's Society (NHS) and the National Technical Honor's Society (NTHS) at the same time. Luckily, I was able to prove this wrong and I am currently a member of both groups, but because of tech I miss almost all Girard NHS meetings, and I need to have special arrangements made to make up for all the information I miss. I also have to do the same for the Positive Behavior In Schools (PBIS) group that I am a member of. I was also never given any SAT information at my home school because since I went to tech I was pre-labeled, and it was assumed to be unnecessary that I took the SAT's because of my choice to come here, while all my other peers received all sorts of information about SAT's and why they (meaning people who do not attend tech) should take them.
104	im late for swimming practice
105	im late to them
106	Im always late to football because of the time it takes me to get back to the home school
107	I can not go to work and have to work around it because it takes to long to get back to Harborcreek
108	Being in the PM class of ECTS made it so that when I got back to Northwestern I missed a good hour and a half of band practice every day.
