New Testimony from Harborcreek School District:

“Two talented artists from Harbor Creek High School toured Creative Imprints today. We could not be more pleased with the experience. After viewing some pieces Creative Imprints produced, we were given a tour of the production facility. The students viewed the working presses, the dye stations, the embroidery unit, and the packaging and shipping department. We spent over half our time working directly with the graphic artists on staff. They were pleasant, helpful, and related to the students very well. Thank you for making this experience available to students. We give this experience an A+.”
