

## **Admissions Coordinator Board Report**

**June 2016**

In the last few weeks of May I had the opportunity to visit several middle school grades to present information about ECTS. These young students are always very interested in the education ECTS has to offer. I appreciate being invited to Iroquois, Millcreek, and Union City to work with 8<sup>th</sup> or 6<sup>th</sup> graders. I will be attending several 9<sup>th</sup> grade orientations in August and as the school year begins. These orientations typically allow for time to address parents as a whole and introduce ECTS. I am happy to attend any of these types of events wishing to have ECTS represented.

Joint Operating Committee Members are added to our mass mailing list. In doing this we are ensuring you receive what current and perspective students and parents receive throughout our marketing process. You should have received the post card magnet mailed in July to all enrolled students. Watch the mail for the packet being sent to all freshmen in each district towards the end of September. I hope you find these mailings informative, inviting, and interesting.

Thank you for your support throughout the 2015-16 school year. I look forward to seeing you in the fall. My August report will include the First 8 Days of School Activities calendar. Stop by and experience these fun, team building activities.

Enjoy the beautiful Erie Summer!
