

Supervisors of Instructional Support Services Report
October 2015
Jan Kennerknecht and Patrick Holland

Curriculum Development

DACUM Workshop- 10 electrical industry representatives and 4 educational institution employees reviewed our Electrical Engineering program on Friday, October 16th. They rated the importance of state tasks, added tasks, provided information on worker behaviors expected, trends, concerns of the industry, equipment, certification, etc. A DACUM research chart will be developed for our instructor to analyze.

Participants included members from the following organizations:

- C&T Electric
- Church & Murdock Electric, Inc.
- Crawford County Career & Technical Center
- Erie Institute of Technology
- Int'l Brotherhood of Electrical Workers, Local 56
- Northwestern Rural Electric Cooperative Association
- NuTech Tooling Systems, Inc.
- Penelec/First Energy
- RE Johnson Electric
- Triangle Tech

Special Education

Our staff is still adjusting to our updated system to get our students with disabilities the direct support they need to be successful in our programs. Both our instructors and instructional aides are working above and beyond to make sure our students are getting the supports they need.

Thanks to our instructional aides for all their help in making sure our students with disabilities received the accommodations needed for the NOCTI Pre-testing.

Literacy

Thanks to Joe for bringing in the speaker from MAX Teaching. The training was a great review of strategies/techniques to help our instructors break down the higher level reading demands of our programs. Also, it was a very good reminder on why we have students write in their daily training at ECTS.
