

## EXCERPTS FROM STUDENT FEEDBACK

### CHAUTAUQUA AMPHITHEATER FIELD TRIP

March 16, 2017

Just watching all the men work was amazing.

Skyler Martin

I liked how everyone had a job to do and there was no confusion. It seems like it would be important to be a problem-solver to be in a career like this.

Gabriel Young

I really liked how everyone worked together.

Colton Glover

Going on this trip made me realize that getting involved in a union is important to this career.

Nathan Mosko

I was impressed with how they thought about all the details, like wheelchair access, drainage for rain water, and how sound travels.

JESSICA FLAK

I really liked the three dimensional model because it showed the finished product, and it also showed the amount of effort that is going into the building.

MICHAEL BATUSKI

It was cool to see something we could all relate to.

TONY MAJCHRZAK

I'm impressed with how fast the building is going up, and how the guys have to work hard and sleep hard.

SCOTT GREGGS

The trip made me realize how important it is to be prepared.

CARL WRENN

Model — \$40,000

300 ton crane

Organ cleaning — one million \$ (one of two in the country)

Theater and sound consultants

Drainage for rain

Starting pay — \$12 to \$15 an hour
