

ECTS Operating Committee:

On Saturday December 3, 2016, four Erie County Technical School Health Assistant students participated in our annual bowling tournament as buddies to Special Olympian participants. These four students were assigned probably the hardest assignments which were to assist the wheel chair bound ramp bowlers. Needless to say they all performed above and beyond what anyone could ever expect. I am sure that the Special Olympian parents and all those connected with the tournament were exceptionally pleased with their efforts.

These students showed compassion and enthusiasm in completing their assigned tasks and should be highly praised for their efforts on Saturday. The students and their home schools are as follows:

Loran Bennett - Girard

Kyleigh Lewis - Millcreek

Alyssa Parana - Millcreek

Melissa Flower - Northwestern

Please also note that all four of these students have participated as volunteers in the past for our annual bowling and basketball tournaments.

If at all possible, could you please pass this information on to your respective home schools?
