Monthly Report to the Joint Operating Committee

January 2017 Page 1 of 1

STAFF SPOTLIGHT

Lisa Sorensen

Admissions Coordinator

After graduating from East High School, Lisa Sorensen attended Edinboro University and earned her Baccalaureate in Elementary Education. At the time however she had no idea her career would take the path that it has. Lisa taught at the elementary level for a couple of years but soon found herself supervising a summer program for at-risk youth at ECTS. When a special education/transition position became available she accepted it and remained in the position for three years.

Lisa has considerable experience aligning curriculum with national skill standards, developing articulation agreements, and she has earned a co-op certification. She is currently the Admissions Coordinator at ECTS and works closely with the professional staff and sending school guidance counselors. While earning her Director's Certification, Lisa had the opportunity to collaborate with administration to learn about funding and the operation of a Career and Technical Center. Prior to her Director's Certification, Lisa earned a Masters Equivalency and a Principal's Certification.

Lisa is energized daily by the CTE environment and says the experience is different every day. Lisa and her husband, Terry reside in Harborcreek and have three children; Abby, Nick, and Mathew. In her spare time, she enjoys traveling and live music.

You can contact Lisa at lsorensen@ects.org.
