

ECTS Drafting and Design Architectural Student Presentations

The 25 afternoon Drafting & Design students ended their first quarter and spent the entire 2nd quarter working on a comprehensive architectural project. The goal for this project was to design a golf course community with 9 houses, a community recreational center, a banquet hall/restaurant and a maintenance building.

Houses were designed for “clients” who consisted of ECTS staff (Mr. Tarasovitch, Mrs. Elaine Shaffer, Mrs. Natalie Fatica, Mrs. Remle Moyak, Mrs. Robin Grimes and Mr. Pat Holland) as well as Drafting OAC member Mr. Jeff Thomas from GE Engineering, volunteer Mrs. Robin Grack and Northwestern School District Superintendent, Dr. Karen Downie.

Courses covered in this project were Architecture concepts, Technical Writing, 3D Architecture drawing and Architectural Model Building. Interviewing techniques, written correspondences, phone conferences, documentation, research, teamwork, problem solving, document management and public speaking were incorporated into this project.

The drafting students presenting this project to the JOC on 1/26/17 will be:

Elizabeth DiBacco – 2nd year from Fairview School District
Lane Fellows – 2nd year from Northwestern School District
Alex Ford – 3rd year from Girard School District
Brett Borland – 3rd year from Girard School District
