Student Feature

Corey Mason

Drafting & Design

Born and raised in Girard, Corey Mason first became interested in drawing while enrolled in a wood shop class in middle school. Students in the wood shop program were required to draw plans by hand prior to cutting a job. Now a senior in Mrs. Sargent's Drafting and Design program, Corey has been on a four-day-per-week co-op at Erie Insurance since last December.

According to Corey, ECTS is a fun place to study a trade and prepare for the future. After graduation in June, Corey will attend the Pennsylvania College of Technology to major in Manufacturing Engineering Technology. When he earns his post-secondary degree, he would like to live and work in Pennsylvania.

Corey says that Mrs. Sargent is a great instructor and is always willing to help students. When not drawing, Corey plays right field and is a pitcher for the Girard High School baseball team. He enjoys hunting, fishing, and racing mini stock cars.
