Event Description: 4 Spa Nights and a trip to Breviller Village to perform manicures on the residents.

Date(s) of Activity:

Spa Nights – October 24th, December 12th, February 13th, April 24th.

Breviller Village date to be determined – most likely beginning of May.

Goal of Activity

Spa Nights have been found extremely educational in the student learning time management on taking back-to-back appointments, something they cannot do during the school day. We have also placed some students in salon position by being able to invite the community to come get services done after hours, we have had salon owners and managers come in. These have also been found helpful in parent involvement in their students education. Not all parents are able to receive services during the day so this allows family and friends to come in and see what their student is learning in cosmetology. I have also found a positive report with parents, since I am seeing them throughout the school year.

Breviller Village is a Activity I like to to with the students to teach them about serving the community by using your talent.
