Finance Manager's Report

February 2018

Career Street Website Project

The website development contract that our attorney reviewed and adjusted has been fully executed by FuseLab Creative and ECVTS Foundation without any additional changes from Attorney Sennett's draft.

The developer is planning to provide us an agenda of focus groups that their team hopes to meet and speak with during an initial on-site visit which is scheduled for March 15th and March 16th.

CS The Product Reporting

A new sub-class has been added to the Foundation and Career Street financials to allow separate tracking for the new CS The Product transactions. This presentation will be initially displayed at the next board meeting since no activities were present until during the month of February.
