

Erie County
Foundation
Vocational-Technical School

PROPOSED AGENDA ITEM

MEETING DATE: May 24, 2018

SUBJECT: Scott Electric Donation Funds – Purchase of Wind Turbine for EET and ELC

SUBMITTED BY: Joe Tarasovitch

DESCRIPTION: Mr. Corey Long and Mr. Marty Burnham, ECTS EET and ELC instructors, have expressed their interest in jointly developing a new hands-on experience curriculum for PLC Wind Turbine training in their lab programs.

Since the Wind-Turbine Trainer would be utilized in two programs – Electrical Engineering Technology and Electronics, a recommendation is being made that the Erie County Vocation-Technical School Foundation utilize donated funds from the Scott Electric Foundation to purchase a “Lab Volt” PLC Trainer Wind Turbine and the related curriculum.

The equipment and curriculum has a projected cost of \$15,000.

RECOMMENDATION: Motion to utilize \$15,000 of the donated Scott Electric Foundation funds to purchase the “Lab Volt” PLC Trainer Wind Turbine and related curriculum.
