

Book	Policy Manual
Section	100 Programs
Title	Safety Education
Number	114 - Delete
Status	From PSBA

-The original district policy, Safety Education, has not been included in this section of the draft policy manual. This policy will be used as a resource to draft policy 705, Safety. There is no need per law or regulation for two separate policies regarding safety. This will also keep the policy manual consistent with PSBA numbering system, which makes policy identification easier when updates are released
