

RCTC

Summer has been a whirlwind of changes and preparations for the 2018-19 school year!

RCTC has finished the switchover from the old Sooner Database Management System to the Infinite Campus Database Management System. This change will improve the state reporting process.

Advertising - Starting in the 18-19 school year, RCTC advertisements will be heard prior to each term on two of Forever Media's top radio stations. RCTC is again advertising in the Erie Times News and other local newspapers. We are beginning to get feedback from the community; they are happy to see/hear our advertising! Additionally, Susan Tatalone, RCTC Supervisor will be representing the Regional Career & Technical Center at the Convoy of Hope event taking place August 18, 2018 at Pfeiffer Burleigh School. Organizers are estimating that there will be around 3000+ people in attendance.

RCTC courses that are not in demand were removed from our schedule. However, these courses remain listed on our website since we still have the ability to run them if enough people contact us requesting the course.

Series courses were evaluated and changes made. The tuition fee schedule was evaluated and increases were made where necessary to cover rising costs.

Registration for Term I started on August 6 and will run through August 24.
