

Cosmetology Board Approval Request For 2019-2020 School Year

Community Service Events

1) Spa Nights

My plan is to do 1 spa night a quarter. These were really amazing last year in helping to build my relationship with the parents. It provided them a chance to be involved and get services done by their student after hours while the students gained a true salon knowledge of having back to back clients and managing their own schedule.

Asking for approval on the following dates:

Tuesday, October 29th, 2019

Tuesday, December 10th, 2019

Tuesday, February 11th 2019

2. Serve at a place like Bevillier Village 2019-2020

One of my goals is to have the students learn kindness and how to serve others and give back with the talent and skills they have acquired. I would like to take a field trip with the students and materials to give manicures to the elderly. I think this will send a great message to the students about thinking of others. I would like to do this in end of January or beginning of February

Local Field Trips 2019-2020 School Year

A day trip to Local salons in the area possibly focusing on the salons that have reached top 200 in USA and a lunch off campus during springtime (possible day April)

A special field trip for the students who reach their individual goals. We did this last year, it was a great turnout, and the students loved it! They enjoyed tracking and working towards hitting their goals knowing they were working towards a special treat. (May 20th)
