
High School Activity Report

August 2022

Preliminary Enrollment: As of August 17, 2022, the projected enrollment for the Erie County Technical School is at 805 students. There are nine programs that are projecting a 90% or better enrollment capacity as of this date: ADS, CMP, CNT, COS, ECE, EET, FMT, & HEA.

Principal Meetings: On Monday, August 25th, ECTS hosted the quarterly meeting for the Erie County Principals. Information was shared to ensure that each district and ECTS is prepared to support students' needs that are returning to ECTS, and the new enrollees.

Educators in the CTE: Collaborating with Career Street, ECTS will be offering a 3-hour workshop on February 17, 2023 geared toward the 6-12 grade teachers and guidance counselors in our districts. The focus of "Educators in the CTE" is to expose these educators to the world of Career & Technical Education, by sharing with them not only the benefits of a technical education, but also the academic skills necessary to thrive in the student's chosen career path. Participants will be able to better guide and assist their students as they determine their strengths and utilize them in their future career.

Student Correspondence: Our hardworking secretarial staff – Pam Lasher, Pam Pence, Renee Heberle, and Heidi Crane have been working together to ensure that the high school and adult education programs are ready for the 22-23 school year. Our annual student letters were mailed, along with the school calendar, special events, and important FAQ's brochure for parents.
