

AGENDA ITEM

MEETING DATE: June 22, 2023

SUBJECT: Office of Vocational Rehabilitation (OVR)
Work Placement & Training Program

SUBMITTED BY: Matt LaVerde

DESCRIPTION:

The Office of Vocational Rehabilitation (OVR) runs a reimbursement program for giving students with special needs paid work experience and on the job training. Our Transition Program in the Skills Center would like to connect to this program with Erie County Technical School being added as a provider for the Office of Vocational Rehabilitation to place students. We are calling it our “EDGE” program, where the students would work alongside and learn from our support staff to learn positions in secretarial, custodial, and instructional support to gain an edge toward future employment.

RECOMMENDATION:

Please entertain the request for Erie County Technical School to be a provider on the list for Office of Vocational Rehabilitation to place students in paid work/training positions. OVR will reimburse ECTS the costs for the students paid work experiences.
