
High School Activity Report

August 2023

Preliminary Enrollment: As of August 15, 2023, the projected enrollment for the Erie County Technical School is at 845 students with 92.7% capacity. There are eleven programs that are projecting a 90% or better enrollment capacity as of this date: Auto Body Repair, Computer Networking, Computer Programming, Construction Trades, Cosmetology, Early Childhood Education, Electrical Engineering, Facilities Maintenance, Graphic Media & Design, Health Assistant, and Metal Fabrication.

Principal Meetings: On Wednesday, July 26th, ECTS hosted the quarterly meeting for the Erie County Principals. Information was shared to ensure that each district and ECTS is prepared to support students' needs that are returning to ECTS, and the new enrollees.

Freshmen Orientations: ECTS had or will have a table setup during the Freshmen Orientation events for three of our sending schools. This opportunity allows us to meet potential new students and their parents as they begin their high school career. Thank you Fort LeBoeuf, Iroquois, and Union City for the invitations!

Student Correspondence: Our annual student letters were mailed, along with the school calendar, special events, and important FAQ's brochure for parents. ECTS families also received an email with important dates and information for the upcoming school year. All level one students who requested contact before the start of the school year with questions or concerns have been contacted.
