

Enrollment and Community Engagement Coordinator Updates

March 2024

Enrollment:

All applications have been reviewed and we are currently extending seat offers to students per program and per district. We are preparing to go visit each school in April to welcome and congratulate the current 9th grade students that will be joining us in the fall.

Recruitment and Marketing:

We have updated our program brochure to include EPS. These brochures have been shared with the school counselors and offered at school orientations and career fairs. We will be presenting ECTS to 8th grade students in Girard Middle School in May. We also have 5th grade students from Fort LeBoeuf taking a tour of ECTS in May.

Community Engagement:

This month we were invited to have an information table at Fort LeBoeuf and General McLane's 8th grade orientation evening event. We also attended a career fair at Fairview. Iroquois Elementary is having a career fair in May and we will be attending. Our third high school counselor all day meeting occurred this month. Additionally, we also had our first elementary and middle school guidance counselor meeting. The plan is to have the elementary and middle school counselor meeting at ECTS at least once year.
