Afternoon sessions 12:10-2:30

AUT 34

EET 22

FMT 23

CNT 33

DDE 1

MTF 25

Total 138 students

NOTES

Additional questions

- What credentials do you need to begin an apprenticeship?
- How long do apprenticeships take?
- Based on the list of apprenticeship possibilities, which field sounds most interesting to you? Why?
- What does a day as an apprentice look like?
- Is there any way to get into the union other than the apprenticeship program?

New included invitees

Sean Foley (Carpenters) is a Millwright. Spoke with Rob S (PMT) about presenting to PMT.

Possibly ask each to bring an apprentice with them next year?
