This message came from outside your organization.

Hello Matt and Lesa,

I wanted to thank you for ECTS's participation in yesterday's Skilled Trades Fair for Middle School. It was a last-minute change to your week, and your efforts did not disappoint. Brittany brought 9 excellent students, and they collectively had a fabulous display. They were polite, helpful, and very engaging. The middle school students really liked having them there! In addition to helping make the connection to the trades, your students were willing to participate in a spontaneous panel discussion offering their insights into their individual career pursuits. They handled the stage (literally and figuratively), with ease and were very relatable.

Thank you, again, for your role in our day. We sincerely appreciate you being a part of this event and, should we decide to make this an annual event, we will certainly be turning to you for continued engagement.

Have a good afternoon.

Jennifer Nygaard Pontzer
