Thanks for sharing Sara, this is cool!

And they do look sharp dressed everyday in their uniforms. You're doing a great job!!

Sara,

Not sure if George forwarded you the actual pictures, but they put together a little synopsis...

...by the way, I substitute taught from 2017-2018 (for a bunch of different school districts...from Fairview, to CASH, to Ft. LeBoeuf, to Seneca, to CLES/CVES/CVMS, to Girard...and even Erie County Tech for two days)...your kids looked GREAT, and very professional. I was very impressed... they looked pretty fit, too...was telling George that it looked like your program was definitely producing good results. Congratulations!

Erie Station Hosts

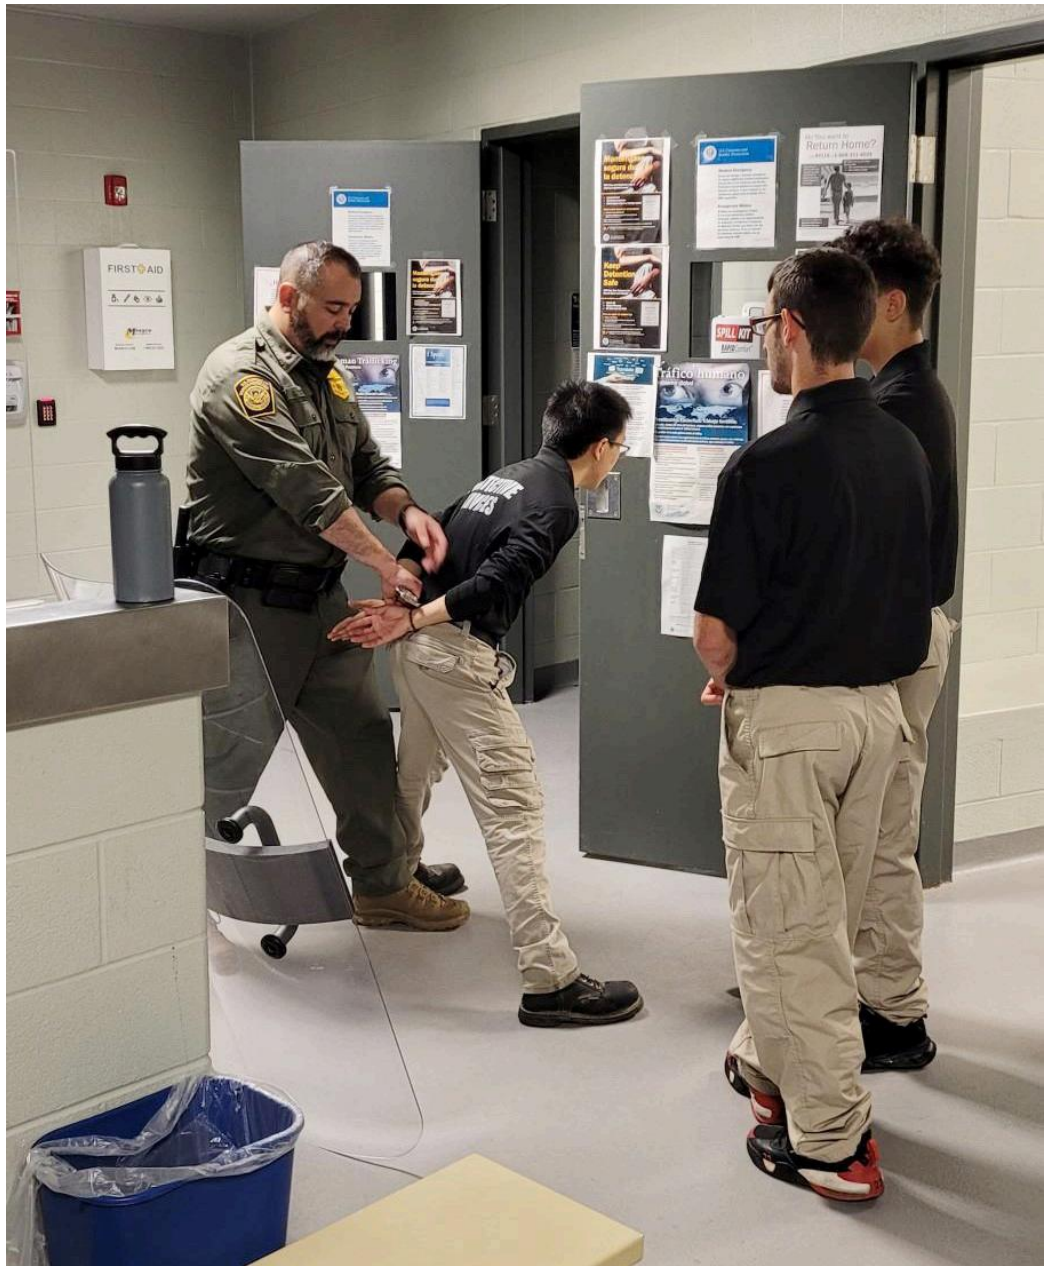

Erie County Technical School's Emergency Protective Services!

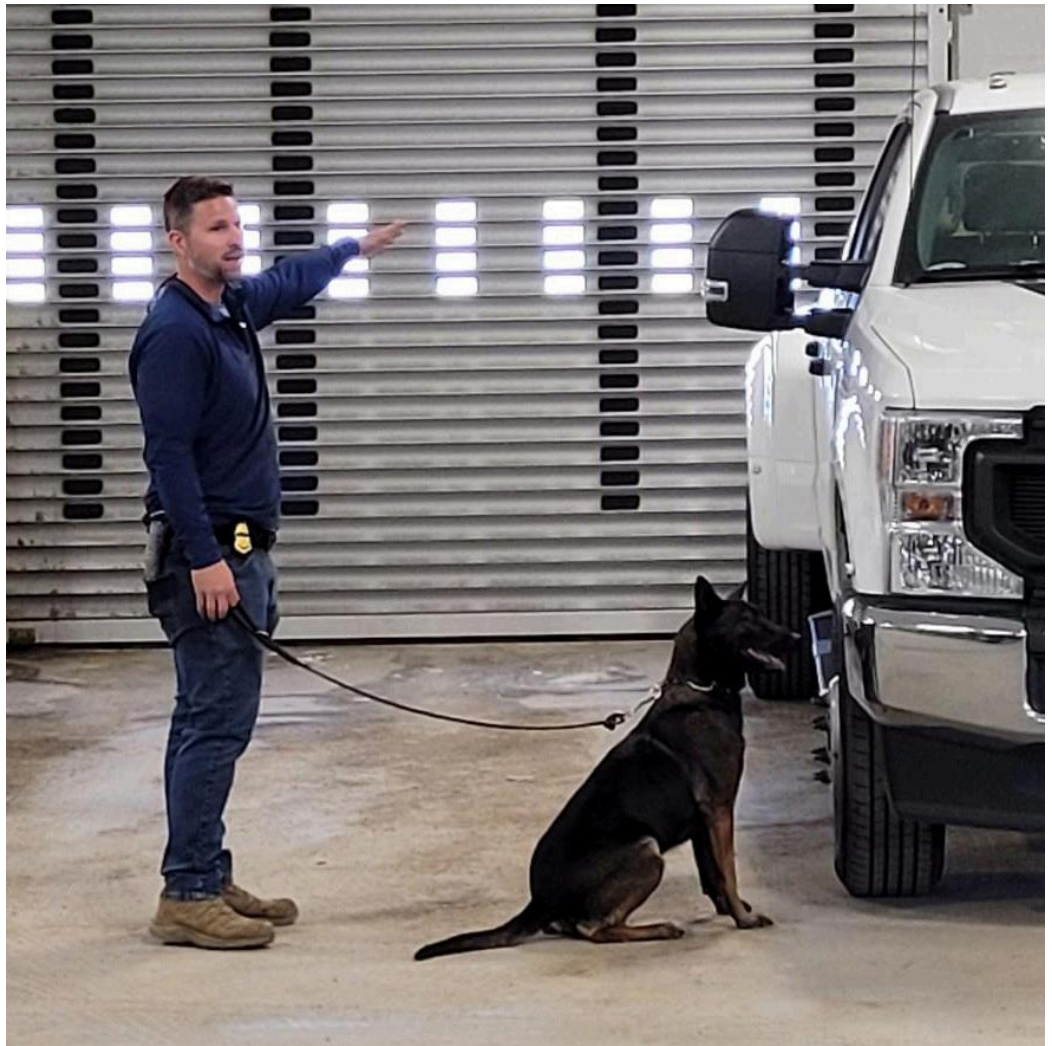

On May 13, 2025, Erie Border Patrol station held a station tour for Erie County Technical School's Emergency Services students. These students belong to schools all over Erie County that participate in additional classes of law enforcement and emergency services. The students were given presentation on vehicle stops, canine operations, SUAS and intelligence briefs and competed in a cell extraction scenario. The students got to see firsthand the border patrol agents do on a regular basis.
