JOC Board Report June 2025

Registration by Program

As of the date of this report, Erie County Technical School has received an impressive 560 student applications for the upcoming school year. Of those, 397 students have successfully completed the full registration process.

Due to the overwhelming interest and strong enrollment across our programs, several are now at or near capacity. To ensure accuracy and efficiency, we are strategically pacing the final stages of enrollment. This temporary slowdown allows our IT department the necessary time to process and input the 397 completed registrations into our internal systems.

Once all student data has been entered, detailed information will be distributed to partner school counselors. This step ensures each student is scheduled into their program of choice and placed appropriately, based on availability and compatibility with their academic goals.

New Student Orientation

We are excited to welcome our incoming students and families to **New Student Orientation**, scheduled for **Wednesday, August 20, 2025, at 6:00 PM**.

This engaging evening serves as an excellent opportunity for students and their families to:

- Meet program instructors and staff
- Tour our campus and become familiar with lab locations and resources
- Ask questions and gain insights into expectations for the upcoming year
- Start the school year feeling confident, informed, and inspired

We anticipate a strong turnout and are preparing an informative and welcoming experience for all attendees.

Upcoming Community Events

Annual ECTS Golf Outing

We are pleased to announce our annual golf outing, an event that helps fund and support our Alumni Association and student enrichment activities.

Event Details:

-  *Whispering Woods Golf Course*
-  *Sunday, June 30, 2025*
-  *8:00 AM – Check-in*
-  *9:00 AM – Shotgun Start (4-Man Scramble)*
-  *2:00 PM – Steak Dinner & Prizes*

How to Participate:

- Register by scanning the QR code provided on our event flyers or by emailing **alumni@ects.org**
- We are gratefully accepting donations to support the continued success of this event and future student initiatives

This is a fantastic opportunity to connect with community partners, alumni, and supporters of career and technical education, all while enjoying a day on the green.

Respectfully submitted,

Brittany Howell
