

Threat Assessment Team (TAT) Guiding Principles

- Control the situation/individual to prevent the possibility of violence
- Protect and aid possible targets to the extent possible
- Provide support and guidance to help individuals deal successfully with their problems
- Utilize the STEP© framework to provide a useful approach to threat management:
 - **S:** De-escalate, contain, or control the individual who may take violent action
 - **T:** Decrease vulnerabilities of the target
 - **E:** Address environment and systems to discourage escalation
 - **P:** Prepare and mitigate against precipitating events that may trigger adverse reactions
